

“They were professional, and very competent, very knowledgeable and very fast”

When the owner of a real estate development company needed to purchase a Cessna Citation jet, he turned to Aero & Marine Tax Professionals to help him save money on the sales tax.

An executive from the company stated: “The business use of the aircraft is to look for business opportunities outside of California in real estate and real estate development. Sometimes we would be looking at multiple properties over multiple days, and it would be problematic to run that around an airline schedule. The jet is fuel-efficient. The parts are readily available and Cessna has multiple service centers across the country. In working with Aero & Marine Tax Professionals, I always received calls back in a timely manner. They were professional, and very competent, very knowledgeable and very fast.”

It's true! We've saved clients literally millions of dollars - I can guarantee you won't find anyone with more knowledge and experience. It pays to plan ahead so future aircraft or vessel acquisitions are properly structured. Plus, if you suspect the status of a purchase made anytime in the past 10 years - I will offer a free analysis of your situation.
